INDEPENDENT AUDITOR'S REPORT

Auditor's Report to the Shareholders of "THEMELI S.A."

Report on Financial Statements: We have audited the accompanying financial statements of "THEMELI S.A." which comprise the balance sheet as at December 31, 2007, and the profit and loss account, and the appropriation account, for the year then ended, as well as the Appendix. Management's Responsibility for the Financial Statements. Management is responsible for the preparation and fair presentation of these financial statements in accordance with the Accounting Standards prescribed by the Greek legislation. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. This responsibility also includes selecting and applying appropriate accounting policies as well as making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility. Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Hellenic Auditing Standards, which conform to International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used, and the reasonableness of accounting estimates made by the management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

From our audit it has derived that: a) The company did not depreciate prior years' fixed assets amounting to 120.000 € approximately, while at the current year depreciations were 30.000 € lesser. Consequently, the shareholders equity is increased by approximately 150.000 €, the current years results by 30.000 € and the prior year's results by 120.000 €. b) The Assets Account C.III.1 "Participating interests in affiliated undertakings" includes an amount of 182.119,00 € which concerns the acquisition cost of shares of a not-listed anonymous company. As it arises from the last balance sheet of the company at 31/12/2007, which is not audited by a Certified Public Accountant, the intrinsic accounting value is null, because of the negative shareholders' equity. The company did not set up an equal provision and burdened the results. Consequently, the current year's results and the shareholders' equity are equally higher. c) In the Assets Account C.I.2 "Concessions, patents, similar rights and assets", D.II.1 "Trade Debtors", D.II.6 "Short term receivables from other companies of participation interest", D.II.10 "Doubtful customers - claims in litigation", D.II.11 "Sundry Debtors", D.II.12 "Advances on account", are included overdue receivables amounting to 2.550.000 € approximately. In case of loss from the liquidation of the above mentioned receivables, the company had formed a provision, according to the article 31 of the Law 2238/94, amounting to 212.442,89, which appears in the Liabilities Account B.2. "Other provisions".

In our opinion the above mentioned provision should be 1.800.000 €. Consequently, the shareholders' equity are approximately 1.450.000 € higher. d) The company based on decision No. 205/1988 of the state Legal Council and art. 10 of Law. 2065/1992 has not recorded a provision for employee retirement indemnity as required by art. 42e, par. 14 of a company Law 2190/1920, since none of the personnel is eligible to retire within the following fiscal year. If a provision for retirement severance was recorded for all the employees of the company, it would amount to € 276.000 approximately of which amount € 199.000 approximately should have been charged to prior year's results and amount € 77.000 approximately to current year results.

Opinion. In our opinion, except for the effects of the matters mentioned in the preceding paragraph, the financial statements present fairly, in all material respects, the financial position of "THEMELI S.A." as of December 31, 2006, for the year then ended in accordance with the Accounting Standards prescribed by the Greek legislation. We do not state any ambiguity as regards the Auditor's Report conclusions; however, we would like to call your attention to the above mentioned issue of the Appendix: In the Note 7: the possibility of additional taxes and penalties is pointed out due to the fact that the Statements of Income Taxes, for the years 2006 till 2007, have not been examined yet by the tax authorities. The outcome of the tax audit could not be previewed at this stage and as a result there has not been any provision in the financial statements relating to this issue. Report on Other Legal and Regulatory Requirements. The content of the Management's Report is consistent to the accompanying financial statements.
